EDUCATION

Malwa Institute of Science and Technology   Indore, MP
Bachelor of Technology in Computer Science Engineering **8.05 CGPA**   *Sep 2020 – June 2024*

Govt S.G Boys H.S School   Indore, MP
Higher Secondary (12th): **78.8%**   *June 2019 – May 2020*

New Father Angel H.S School   Indore, MP
Senior Secondary (10th): **70.4%**   *June 2017 – May 2018*

SKILLS

Programming Languages: C/C++, SQL, JavaScript, HTML5, CSS3.
Frameworks: ReactJs, Redux, NodeJs, ExpressJs.
Database: MySQL, Mongodb.
Developer Tools: Git, VS Code, Postman.
Others DSA, OOPS, RESTful APIs.

EXPERIENCE

Full Stack Developer Internship   Sep 2023 - Oct 2023
Bharat Intern   *Indore, Madhya Pradesh*

- Earned Full Stack Developer Certificate from Bharat Intern; demonstrated proficiency in **Frontend** and **Backend** development using C, C++, JS, JavaScript, React JS, Node, JSON, UI, NPM, ES6, Scripting, work leading to the development of 10+ Responsiveness Web Applications.
- Managed software development projects following both **Agile**, **Scrum** and **Waterfall** methodologies.
- Utilized **GitHub** for code repository management and **version control**.

PROJECTS

ShopEasy E-commerce webApplication | *NodeJs, ReactJs, CSS,HTML, MySQL*   July 2023 – Aug 2023

- Engineered a robust e-commerce **Web Applications** with secure user authentication, Product and customer profile Maintenance seamless shopping cart functionality, and integrated **Stripe payment processing.**
- Implemented a user-friendly interface and streamlined Database interactions using **SQL**, reducing cart abandonment by 40%.
- Enhanced front-end performance and optimized APIs design,improving data handling efficiency by 30%.

Tailoth | *NodeJs, ReactJs, Mongodb, HTML, CSS*   May 2023 – June 2023

- Developed robust Backend logic for secure submission of user data, ensuring 100% form submission success.
- Implemented email notification system using **Nodemailer** to send confirmation emails, resulting in a 40% improvement in user engagement and a 25% increase in form completion rates.
- Conducted thorough troubleshooting and resolved complex software issues.

Text-Transformation | *ReactJs, HTML, CSS, Bootstrap*   Dec 2022 – Dec 2022

- Developed a **responsive User Interface** web application for text manipulation, supporting 6 key transformations such as uppercase, lowercase, sentence case, removal of extra spaces, and text copying.
- Optimized for seamless performance across 15 different device types, enhancing user productivity by reducing text editing time by 70%.

ACHIEVEMENTS

- Solved over **150+ coding problem** on the prominent coding platform **LeetCode**.
- Actively participated in 10+ coding contests and **hackathons**, demonstrating problem-solving skills and coding.

CERTIFICATION

JavaScript Basics from HackerRank | *97C6E592E5F8*   Aug 2022
